COMPANY PROFILE

My HelpYou and its partners were born to bridge the gap between the people who want to make a difference through giving back and those who are doing phenomenal work but need more support. Our focus has been to build trust for the social sector by strong due diligence of all our nonprofit partners, and transparency on how donations impacted lives on the ground.

We are proud to have played a small role in enabling giving across all segments of our society - everyday givers, corporates and foundations.

We will continue to stay tuned to the needs on the ground, innovate for scale, and find ways of inspiring every person who can to give back. India is a country that is rich in so many resources. There is no reason for 300 million citizens to continue to live below the poverty line.

My Help You

Conti..

Crowdfunding is a non-bank financing option in which startups accept small donations from many people to receive a much-needed cash boost to get their ventures off the ground. Entrepreneurs typically launch crowdfunding campaigns via internet platforms; they set time frames for raising money and disclose specific monetary goals.

Understand The Basic Concept

Crowdfunding contributors can include friends, family members, investment groups, personal investors, and those who simply are interested in your venture. The goal is to attract as many potential investors as possible.
